yocova

Yocova is an end-to-end platform for innovation
A digital infrastructure and services to facilitate the exchange of ideas, data and apps across the aviation industry. It consists of four pillars:

Community

Connect with professionals across aviation, forming groups to collaborate on industry challenges and become part of an ever-growing pool of expert knowledge

Data rooms

Exchange data with control, privacy and security to solve business and industry challenges

Marketplace

Find, try and buy leading digital aviation solutions, or sell your own through a global route-to-market

Enterprise Engagement

Deliver content, engage customers, and administer business with ease and efficiency

About us

COMPLETE YOUR PARTNER ONBOARDING QUESTIONNAIRE

Our vision

Transform aviation by creating an open and neutral platform, where information and ideas can be securely shared, to improve outcomes for the whole industry.

Our mission

Create a data-led, industry-wide movement to improve aviation safety, reduce risk and discover new revenue opportunities.

What is Yocova?

Yocova (You Connect for Value) is an open, neutral digital platform and ecosystem for the aviation industry to collaborate, manage data, and access leading digital services from OEM partners and digital vendors.

It's an end-to-end platform for innovation: digital infrastructure and services to facilitate the exchange of ideas, data, and apps in aviation. The platform is structured around the pillars of Community, Data Rooms, Marketplace, and Enterprise engagement:

- **Community:** the global aviation community on one open and trusted platform – and collaborate with aviation peers in public forums and private working groups
- **Data collaboration:** a decentralised, secure, and voluntary data API exchange giving you full control of who accesses your data to support your digital initiatives
- **Marketplace:** a trusted 'go-to' aviation marketplace for digital transformation – find, try, buy, and deploy leading digital aviation apps, data API solutions and services, or sell and manage your own through a global route-to-market
- **Enterprise engagement:** Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community.

For OEM partners, Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community. For OEM customers, a single-entry point for swift, efficient user access to all OEM digital content.

Yocova continues to pursue its growth strategy at pace with over 6,000 members extending across the aviation value chain, including but not limited to professionals and enterprises from airlines, business jet operators, digital/data vendors, through to Airports, ANSPs and OEMs.

you + connect = value

Yocova is a globally unique, distinctive and memorable moniker for the platform, reflecting our proposition and the behaviours that will help us achieve our vision:

- **Connect with industry peers**
- **Collaborate to solve problems**
- **Contribute regularly**

Platform pillars

Marketplace

Find, try, buy and deploy leading digital aviation apps, Data APIs, solutions and services, or sell and manage your own through a global route-to-market

The best of aviation's digital offerings

- Browse relevant, high quality, and compliant solutions related to aviation operations
- What's in store: apps, data APIs, services

Try before you buy

- De-risk your purchases by requesting a trial from our vendors before you buy

Sell your own digital assets

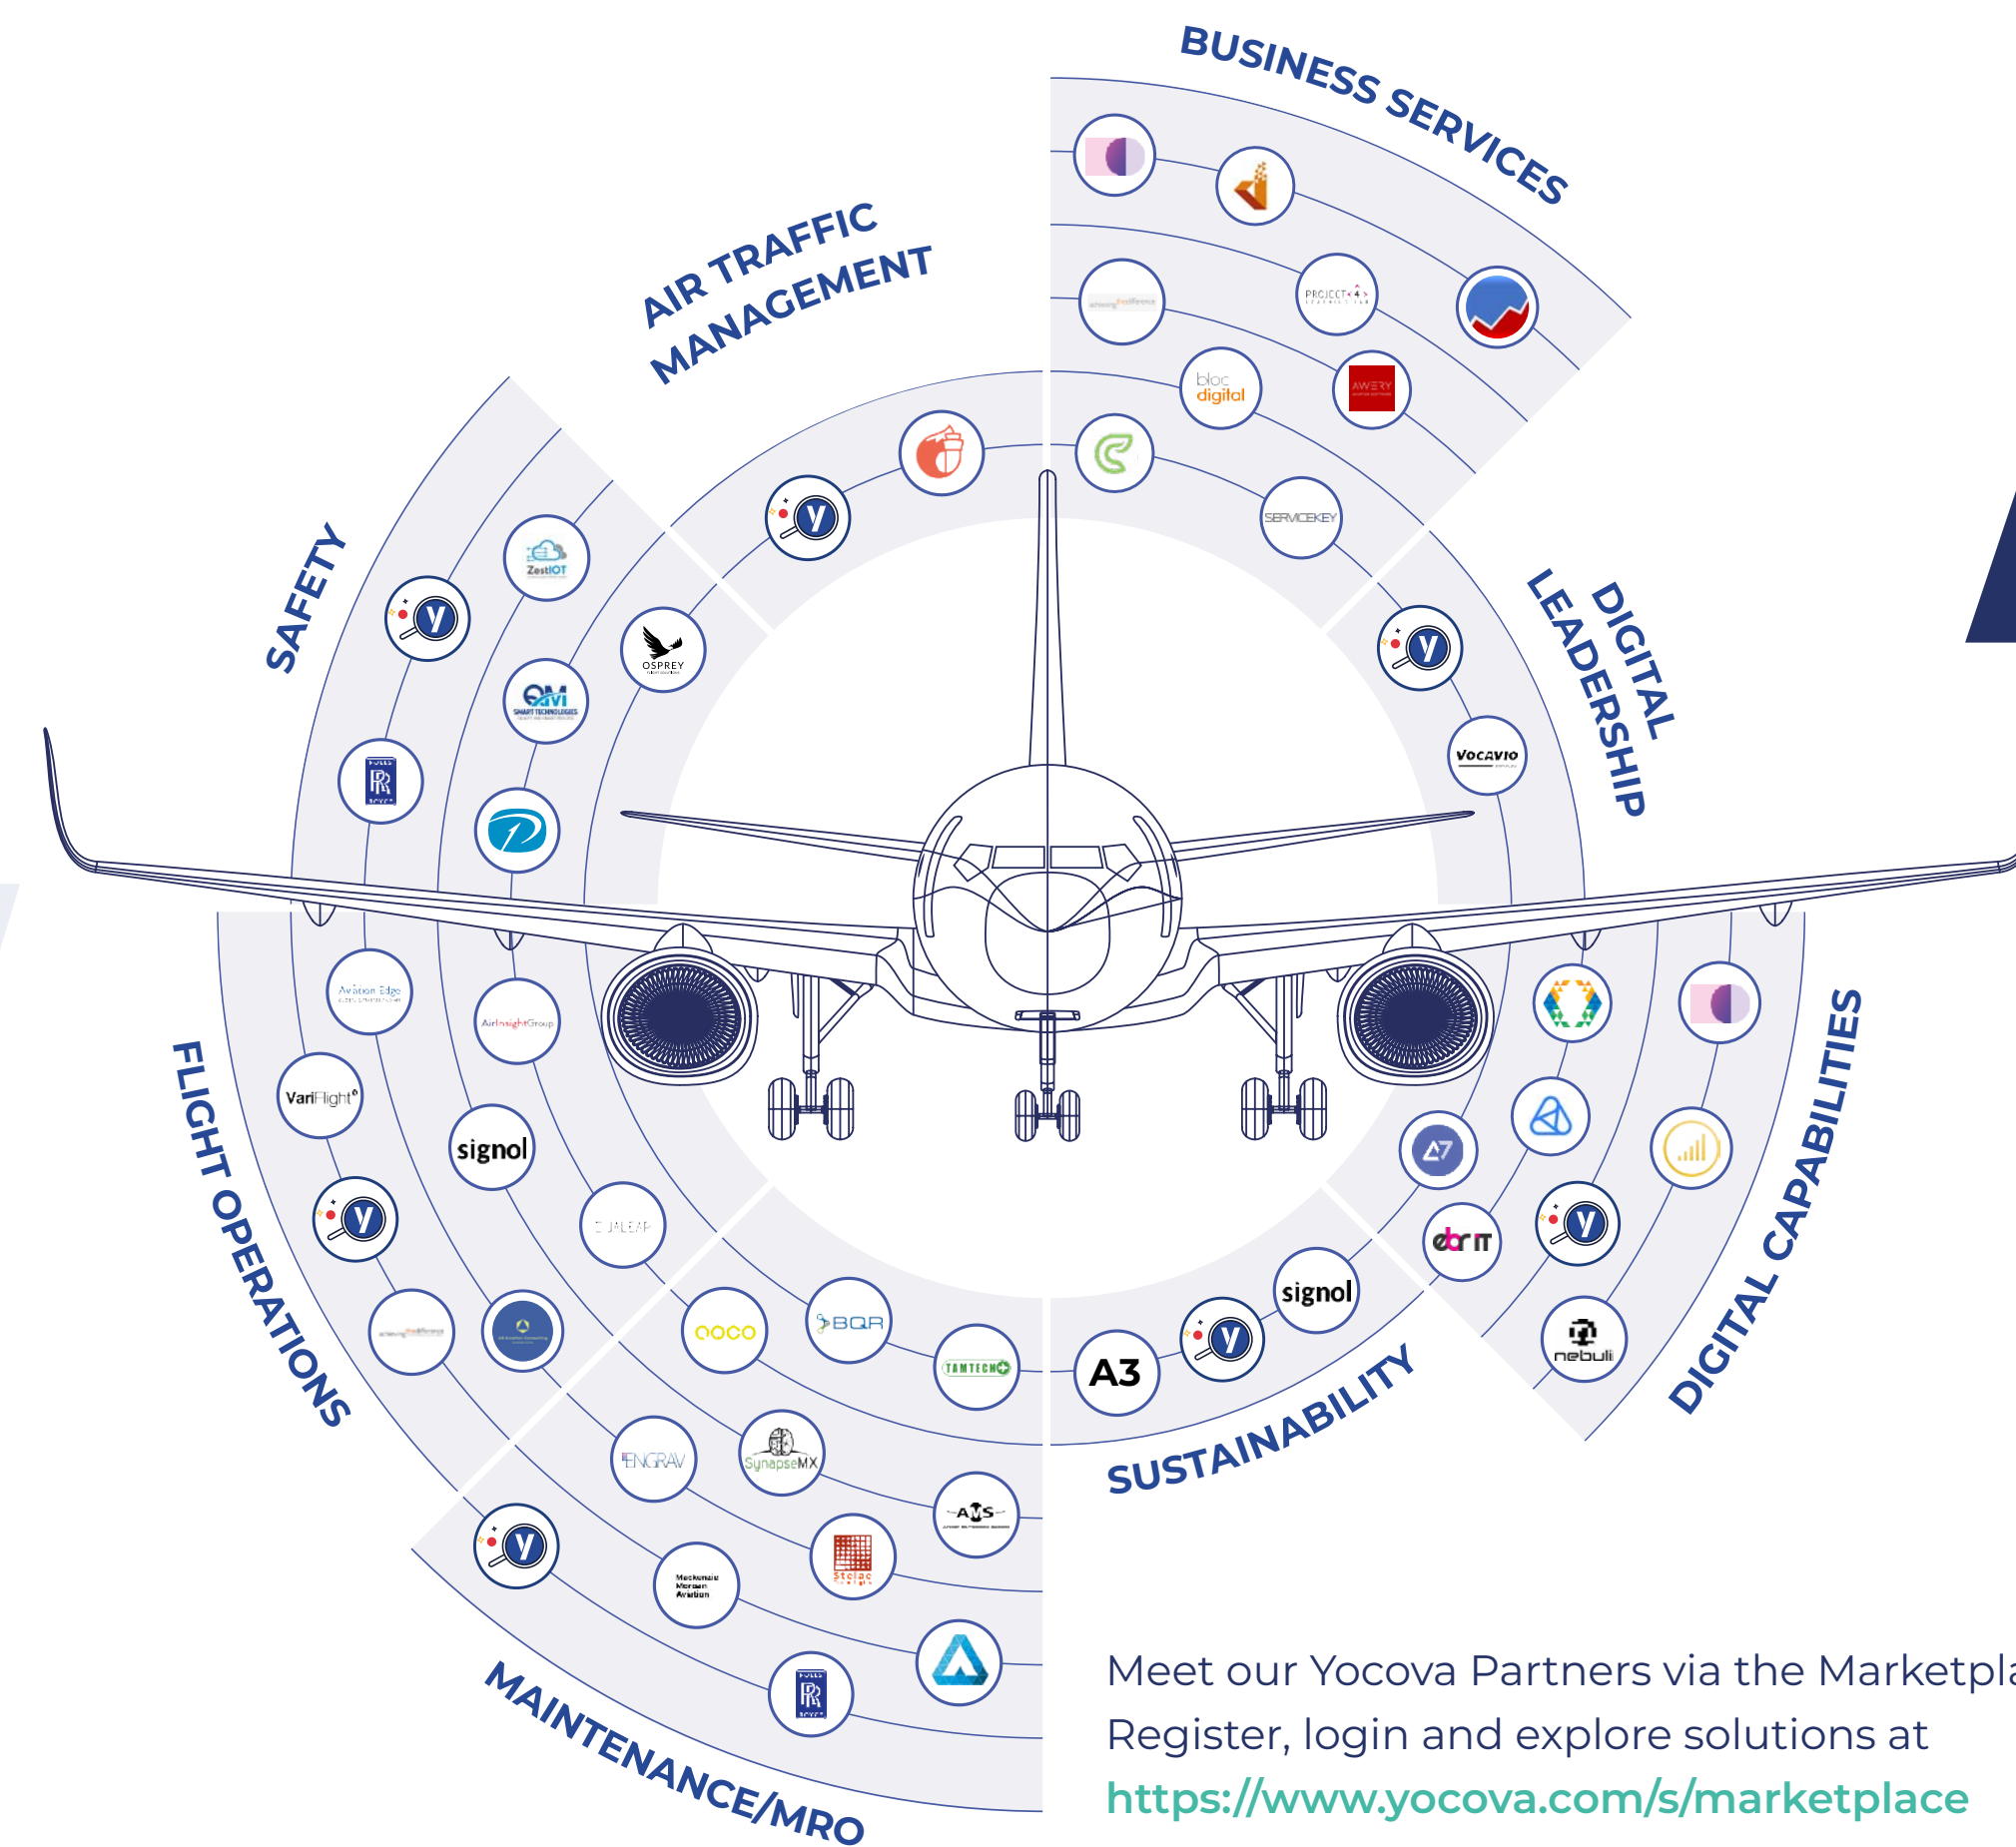

Commercialise your own applications and datasets to a global market on the Yocova Marketplace

List data, services and software solutions

Spanning the world of aviation operations...	Maintenance	OEM services
	Flight operations	Safety
	Ground operations	Fleet planning

Find, trial and procure data and software solutions

150 Marketplace listings	Data APIs	Data management services
	Analytics tools	Consultancy services
	AI-powered insights	Marketing services
	Apps

* Partners and core sectors correct at time of publication.

Data rooms

Exchange data with control, privacy and security to solve business and industry challenges

You're in control

- List data APIs in a private cloud, giving you control of who accesses your data, how often and how much
- Choice of cloud storage providers

Secure

- Industrial grade cyber security to ensure any data you share is protected

Interoperable

- Yocova Data Rooms can host and exchange data from a wide variety of data API structures

Unlock value from your data by sharing it with those you trust in a Yocova Data Room.

Here are two examples of current data collaborations:

Global Hazard Data Sharing

Sharing aggregated and anonymised bird strike data between airlines to drive industry safety and operational performance.

16 members from 8 companies

Fuel Efficiency Working Group

Collaboration on live aircraft turbulence data to quantify the impact of different variables on fuel efficiency for airlines.

7 members from 4 companies

Julie Seah
Manager Safety, Security & Environment Development, Singapore Airlines

“To be forward looking, we need to proactively identify emerging trends and look at how we can leverage on technology to improve safety for continuous improvement. Yocova provides a secure and easy to use tool for hazard data sharing which will allow for a more predictive approach to safety.”

* Yocova functionality in development pending release to community members

Enterprise Engagement

Distributor Membership content distribution

Trusted command and control platform through which to distribute and manage enterprise digital services, apps and data across your global user and partner community

Content distribution: Customer command and control

Distributor Membership provides a single consolidated and scalable platform through which to distribute, authenticate, manage and update digital content across your user community. It's designed for OEMs and major global enterprises managing a fragmented, complex portfolio of digital services, across an equally fragmented global customer and user base.

- Easily distribute and manage access to your customer facing digital services (apps, data API's and solutions) across your global customer, partner base and wider stakeholder community.
- Take away the technical and commercial complexity of deploying and managing a long and expanding list of digital content across a fragmented global customer and partner base.
- Yocova provides a single command and control platform through which to distribute, authenticate, manage and update all your digital content across your user community.

Distributor Membership: A platform to bring aviation together

Consumers

Your cockpit for digital & supply chain solutions

- SSO & authentication
- User access mgmt.
- Secure data sharing

Distributors

A flexible, capable & beautiful interface to your world
