21st March 2023

## Yocova provides insights on the aviation industry post-pandemic

Yocova, the digital aviation platform that unites businesses and professionals around the world, has released a new eBook providing insights from industry-leading experts about the long-term impact of the Covid-19 pandemic in aviation.

This eBook reflects on how the pandemic's effects and the years since early 2020 have changed aviation forever. It covers the impact of COVID-19 and the future of aviation, from digitalisation, flight and ground operations to MRO, safety, sustainability, and business aviation.

The series features articles with contributions from professionals across the aviation industry, including airlines, regulators, associations and consultants, and MRO and digital solutions providers, brought together by the Yocova platform.

This collaborative effort draws upon reflections on the pandemic, the challenges that persist and those that are emerging, together with opportunities to innovate and shape the future of the industry and what we might be able to expect next.

Addressing these matters, the series includes articles on:

- The aviation industry post-pandemic
- Digitalising businesses across aviation for the future of the industry
- MRO in the post-pandemic world: opportunities, challenges and innovation
- Evolving safety and regulatory approaches since the start of pandemic travel restrictions
- Digitalisation opportunities, ESG threats and a challenging 2023
- New tech and new collaborations driving the future of flight operations
- New technologies and processes that steer ground operations
- How aviation faces strategic externalities as sustainability challenges grow

### Yocova comment

“We’re delighted to have produced this eBook, which addresses many important issues as the industry moves forward from the Covid-19 pandemic. The book includes contributions from Yocova members who are industry-leading experts in their fields. It’s a real collaboration effort and with all these insights brought together, we hope this will help the industry in its next stages of recovery.”

### About Yocova

Yocova (You Connect for Value) is an open, neutral digital platform and ecosystem for the aviation industry to collaborate, manage data, and access leading digital services from OEM partners and digital vendors.

It’s an end-to-end platform for innovation: digital infrastructure and services to facilitate the exchange of ideas, data, and apps in aviation.

The platform is structured around the pillars of Community, Data Rooms, Marketplace, and Enterprise engagement:

- **Community:** the global aviation community on one open and trusted platform – connect and collaborate with aviation peers in public forums and private working groups
- **Data collaboration:** a decentralised, secure, and voluntary data API exchange giving you full control of who accesses your data to support your digital initiatives
- **Marketplace:** a trusted ‘go to’ aviation marketplace for digital transformation – find, try, buy, and deploy leading digital aviation apps, data API’s solutions and services, or sell and manage your own through a global route-to-market
- **Enterprise engagement:** Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community.

For OEM partners, Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community. For OEM customers, a single entry-point for swift, efficient user access to all OEM digital content.

Yocova continues to pursue its growth strategy at pace with over 6,000 aviation professional members from across 425+ airlines and 840+ aviation enterprises extending across the aviation value chain, including but not limited to professionals and enterprises from airlines, business jet operators, digital/data vendors, through to airports, ANSPs and OEMs.
