

PRESS RELEASE

11th August 2023

AeroChef joins Yocova as a Member of the Partner Programme

AeroChef, the leading enterprise-level cloud-based catering management software provider, has joined the Yocova Partner Programme.

As a Partner Member, the company is taking advantage of the benefits the platform provides, including instant connection with Yocova's community of aviation enterprises and professionals around the world.

AeroChef's latest software release is targeted directly towards airlines needing a more cost-effective system to manage caterers and suppliers. The software provides airlines with a range of benefits including menu planning, meal order processing, management of catering vendors, plus invoicing and reconciliation.

AeroChef currently processes over 65 million inflight meals every year across 50 airlines, 2,200 flights, and manages the delivery of 175,000 meals daily.

AeroChef comment

"We are pleased to join Yocova (a Rolls Royce company) and applaud the efforts to create a first of its kind digital platform focused purely on the aviation industry. This gives the advantage of getting a filtered set of aviation professionals, industry experts, airline operators and suppliers that can be trusted to transact business. We look forward to connecting with more airlines through the Yocova network."

Yocova comment

"The aviation industry is increasingly recognising the benefits of digital solutions to our industry, our operations and ultimately our customers. The AeroChef solution takes the pain out of inflight catering management for airlines, so it's fantastic to have the team onboard and taking advantage of our platform to easily connect with our network of airlines around the world".

About Yocova

Yocova (You Connect for Value) is an open, neutral digital platform and ecosystem for the aviation industry to collaborate, manage data, and access leading digital services from OEM partners and digital vendors.

It's an end-to-end platform for innovation: digital infrastructure and services to facilitate the exchange of ideas, data, and apps in aviation.

The platform is structured around the pillars of Community, Data Rooms, Marketplace, and Enterprise engagement:

- **Community:** the global aviation community on one open and trusted platform – connect and collaborate with aviation peers in public forums and private working groups
- **Data collaboration:** a decentralised, secure, and voluntary data API exchange giving you full control of who accesses your data to support your digital initiatives
- **Marketplace:** a trusted 'go to' aviation marketplace for digital transformation – find, try, buy, and deploy leading digital aviation apps, data API's solutions and services, or sell and manage your own through a global route-to-market
- **Enterprise engagement:** Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community.

For OEM partners, Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community. For OEM customers, a single entry-point for swift, efficient user access to all OEM digital content.

Yocova continues to pursue its growth strategy at pace with over 6,000 aviation professional members from across 425+ airlines and 840+ aviation enterprises extending across the aviation value chain, including but not limited to professionals and enterprises from airlines, business jet operators, digital/data vendors, through to airports, ANSPs and OEMs.

About AeroChef

AeroChef was first established in 2005 as user-friendly and highly scalable software for inflight catering, and has since evolved to be a leading provider of a web-based system for airline catering. AeroChef currently has over 20 integrated software modules and supports all major cloud platforms such as Azure, AWS, and Google Cloud. AeroChef serves customers across three continents and has support offices in USA, United Kingdom, UAE, and India. .
