Ryanair and Yocova partner Osprey Flight Solutions extend partnership for five years, bringing next gen aviation security technology to the skies

Ryanair, Europe's leading low-cost airline, and Yocova partner Osprey Flight Solutions, a global leader in aviation risk assessment solutions, have announced the extension of their partnership for a further five years. With Osprey's AI driven predictive intelligence solutions, the partnership will continue to focus on delivering the highest level of security intelligence to Ryanair.

Osprey has been working closely with Ryanair since 2020 and under the renewed partnership, Ryanair will continue to have access to Osprey's suite of data driven risk assessment solutions. Leveraging Open-Source data, AI and world-leading expertise, the system tracks, reports, forecasts, and alerts on a multitude of factors that could ultimately lead to disruption to operations.

The renewed partnership between Ryanair and Osprey Flight Solutions highlights the importance of investing in safety management. With the aviation industry constantly evolving, it is essential that airlines work with trusted partners to ensure that they are operating at the highest level of safety and efficiency.

Ryanair comment

"We are delighted to extend our partnership with Osprey Flight Solutions for five years. Safety is our No.1 priority, and Osprey's innovative solutions play a role in our operational safety and security decision making processes. We look forward to continuing to work with Osprey over the coming years."

Carol Sharkey, Chief Risk Officer, Ryanair

Osprey Flight Solutions comment

"We are thrilled to continue our partnership with Ryanair and support their ongoing commitment to aviation security. By extending the partnership, Ryanair recognises the tangible operational and financial value delivered through our advanced technological solutions. We are proud to be providing the next generation of risk management solutions to Ryanair."

Andrew Nicholson, CEO, Osprey Flight Solutions.

Yocova comment

“We are delighted to learn of the continued partnership between Yocova partner Osprey Flight Solutions and Ryanair for a further five years. The stability of this trusted collaboration between two aviation specialists will ensure the continued top-level of safety and efficiency for passengers and crew.

As part of the global Yocova community, Osprey Flight Solutions can connect with over 7,500+ aviation professional members from across 425+ airlines and 840+ aviation enterprises extending across the aviation value chain, including but not limited to professionals and enterprises from airlines, business jet operators, digital/data vendors, through to airports, ANSPs and OEMs.”

About Yocova

Yocova (You Connect for Value) is an open, neutral digital platform and ecosystem for the aviation industry to collaborate, manage data, and access leading digital services from OEM partners and digital vendors.

It's an end-to-end platform for innovation: digital infrastructure and services to facilitate the exchange of ideas, data, and apps in aviation.

The platform is structured around the pillars of Community, Data Rooms, Marketplace, and Enterprise engagement:

- **Community:** the global aviation community on one open and trusted platform – connect and collaborate with aviation peers in public forums and private working groups
- **Data collaboration:** a decentralised, secure, and voluntary data API exchange giving you full control of who accesses your data to support your digital initiatives
- **Marketplace:** a trusted 'go to' aviation marketplace for digital transformation – find, try, buy, and deploy leading digital aviation apps, data API's solutions and services, or sell and manage your own through a global route-to-market
- **Enterprise engagement:** Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community.

For OEM partners, Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community. For OEM customers, a single entry-point for swift, efficient user access to all OEM digital content.
