yocova

Yocova is an end-to-end platform for innovation

A digital infrastructure and services to facilitate the exchange of ideas, data, and apps across the aviation industry. It consists of four pillars:

Community

Discuss, share and learn with aviation peers in public forums and private working groups

Data rooms

Exchange data with control, privacy and security to solve business and industry challenges

Marketplace

Find, try and buy leading digital aviation solutions, or sell your own through a global route-to-market

Enterprise engagement

Deliver content, engage customers, and administer business with ease and efficiency

What is Yocova?

Yocova is an open, neutral digital platform and ecosystem for the aviation industry to collaborate, manage data, and access leading digital services from OEM partners and digital vendors.

It's an end-to-end platform for innovation: digital infrastructure and services to facilitate the exchange of ideas, data, and apps in aviation. The platform is structured around the pillars of Community, Data Rooms, Marketplace, and Enterprise engagement:

- **Community:** the global aviation community on one open and trusted platform – and collaborate with aviation peers in public forums and private working groups
- **Data collaboration:** a decentralised, secure, and voluntary data API exchange giving you full control of who accesses your data to support your digital initiatives
- **Marketplace:** a trusted 'go-to' aviation marketplace for digital transformation – find, try, buy, and deploy leading digital aviation apps, data API solutions and services, or sell and manage your own through a global route-to-market
- **Enterprise engagement:** Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community.

For OEM partners, Yocova provides a single command and control platform through which to securely distribute, authenticate, and update all digital content across the customer community. For OEM customers, a single-entry point for swift, efficient user access to all OEM digital content.

Yocova continues to pursue its growth strategy at pace with over 8,500 members extending across the aviation value chain, including but not limited to professionals and enterprises from airlines, business jet operators, digital/data vendors, through to Airports, ANSPs and OEMs.

you + connect = value

Yocova is a globally unique, distinctive and memorable moniker for the platform, reflecting our proposition and the behaviours that will help us achieve our vision:

- **Connect with industry peers**
- **Collaborate to solve problems**
- **Contribute regularly**

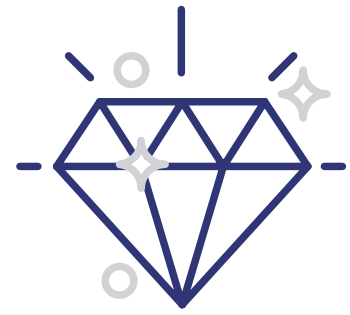

Transform aviation by creating an open and neutral platform, where information and ideas can be securely shared, to improve outcomes for the whole industry.

**Create a data-led,
industry-wide movement
to improve aviation safety,
reduce risk and discover
new revenue opportunities.**

Our goals

Deliver unique, valuable content

For the membership to fuel the movement towards data transformation

Establish a lively community

To exchange ideas, solve problems, lead innovation and network

Facilitate collaboration

Through the secure exchange of data and the development of digital solutions to address the major issues the industry faces

Build an open marketplace

Where buyers and sellers can be brought together to procure and sell proven, relevant solutions

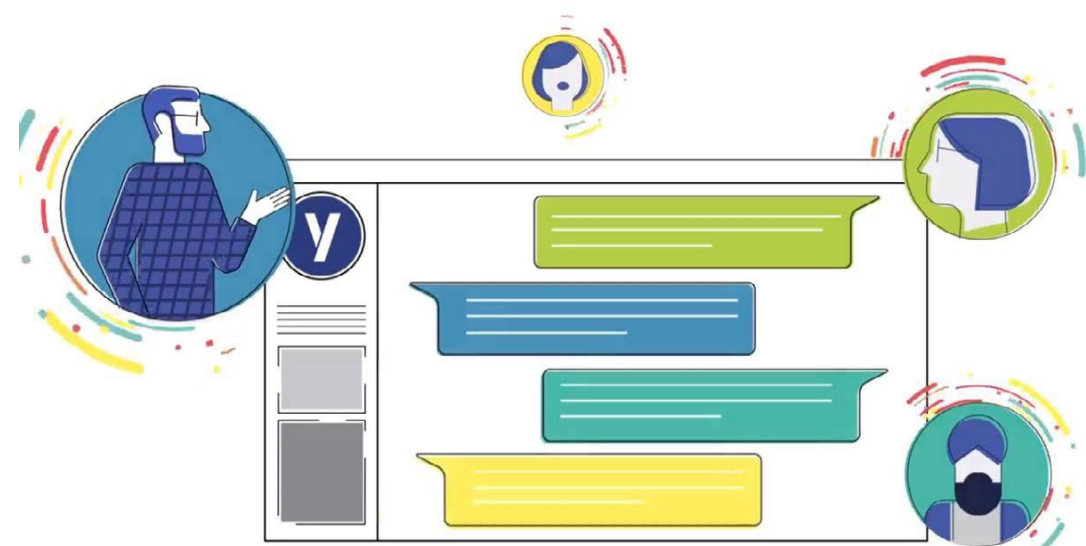

Our community in numbers

Yocova community

The global aviation community on one open and trusted platform where Members can connect, discuss, share and learn with aviation peers in public forums and private working groups.

We're delighted to share insights for both our internal and external audiences which show the reach, interest and support Yocova receives from global aviation communities.

Our daily growing membership is made up of all types of professional aviation stakeholders.

8,500+

Members, growing daily:

- Airlines

Platform pillars

Marketplace

Find, try, buy and deploy leading digital aviation apps, Data APIs, solutions and services, or sell and manage your own through a global route-to-market

The best of aviation's digital offerings

- Browse relevant, high quality, and compliant solutions related to aviation operations
- What's in store: apps, data APIs, services

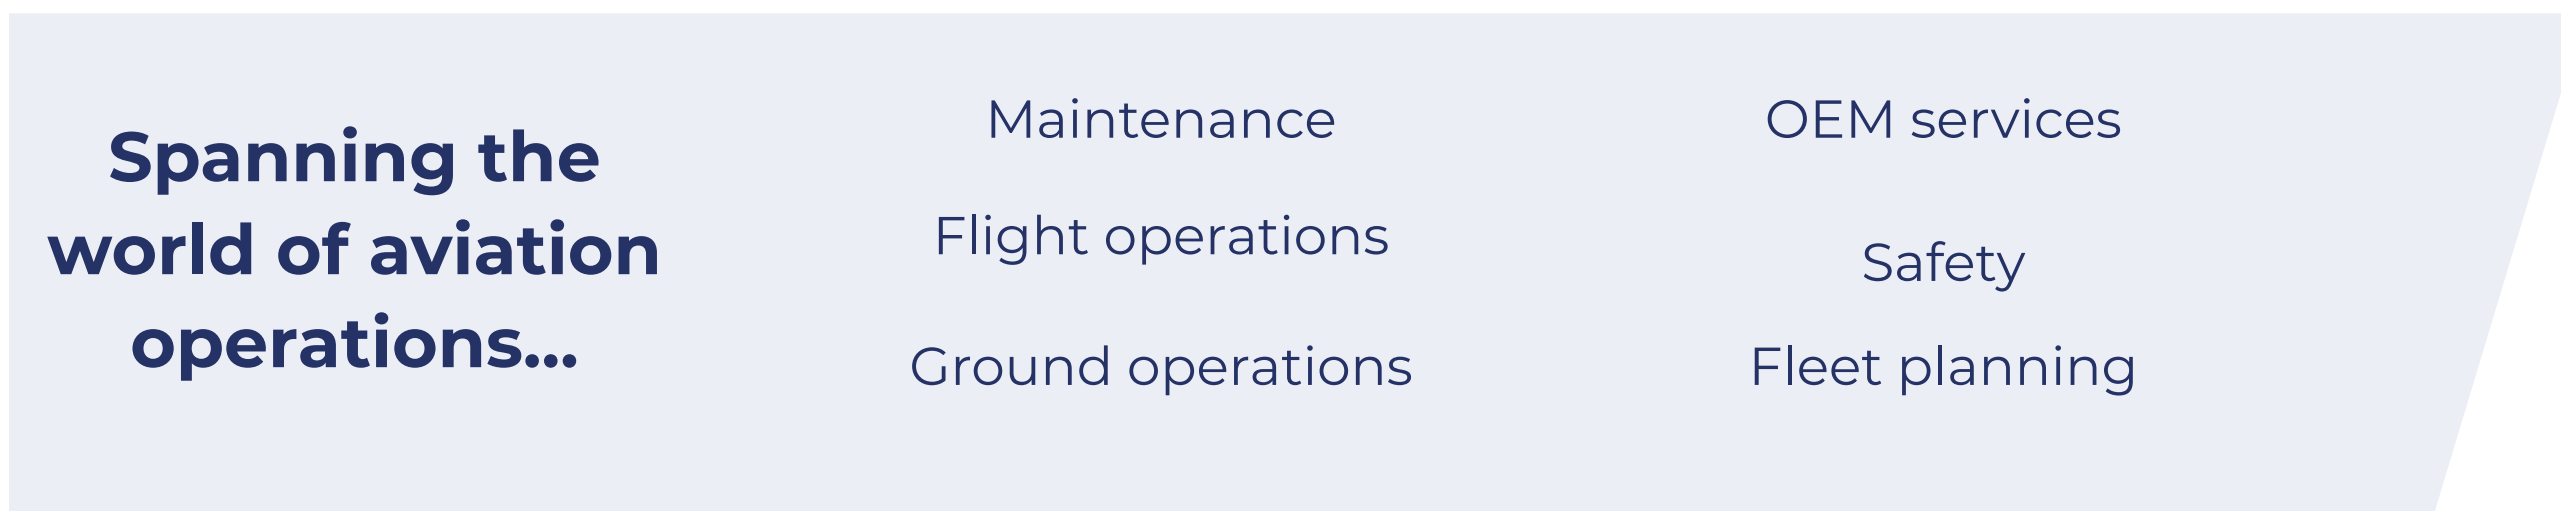

Try before you buy

- De-risk your purchases by requesting a trial from our vendors before you buy

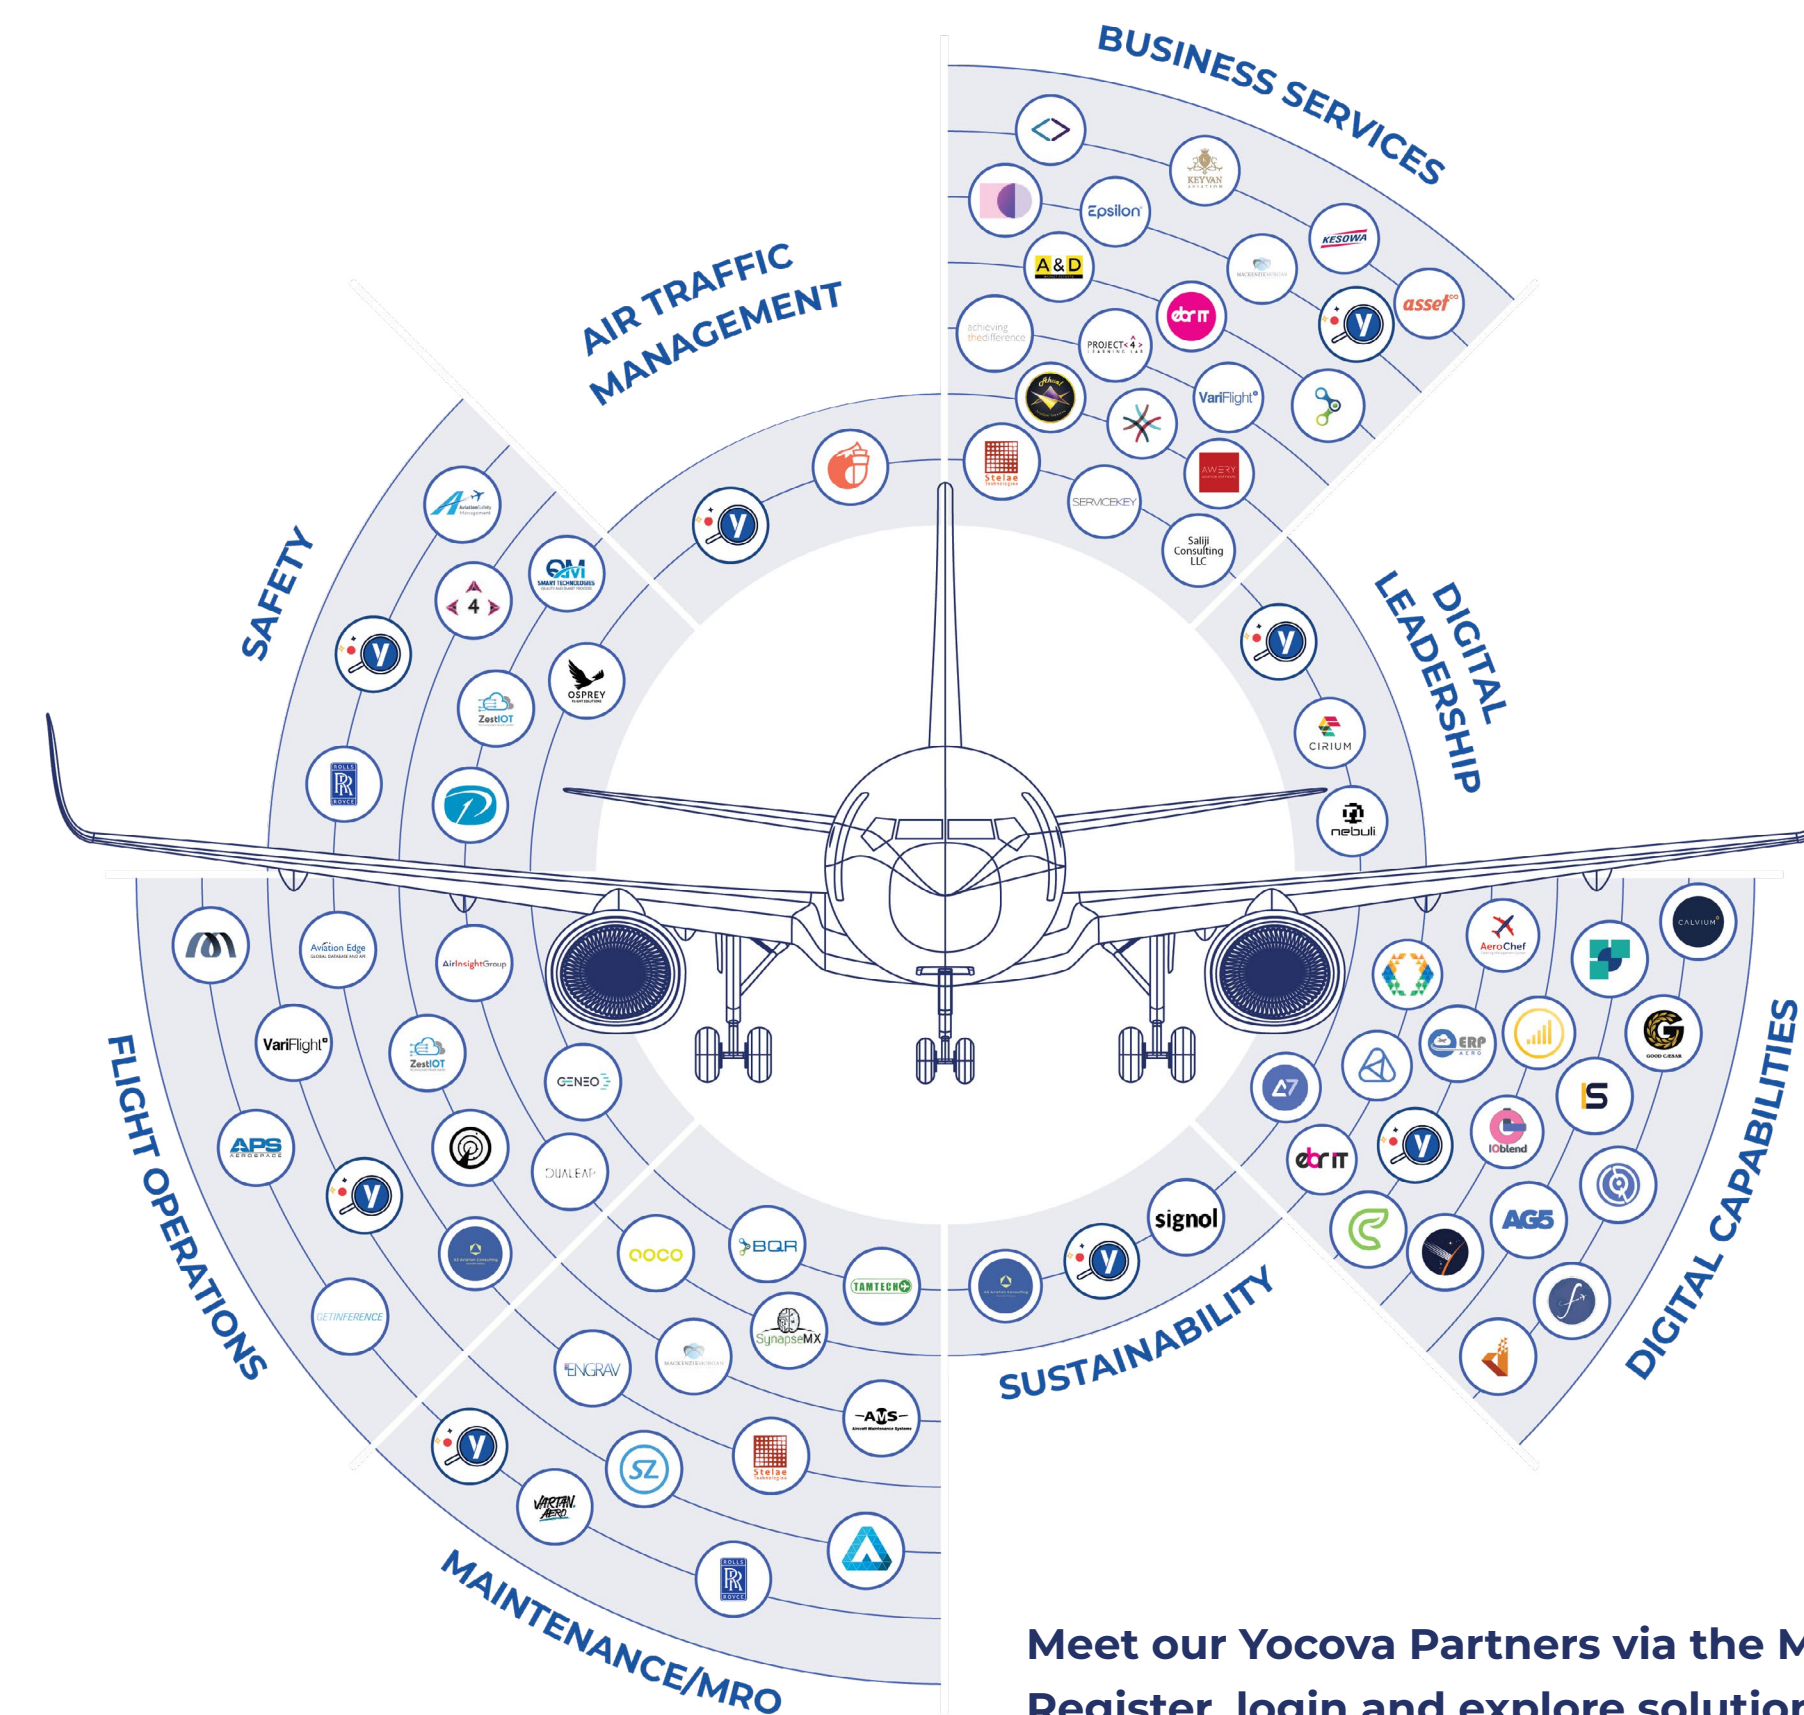

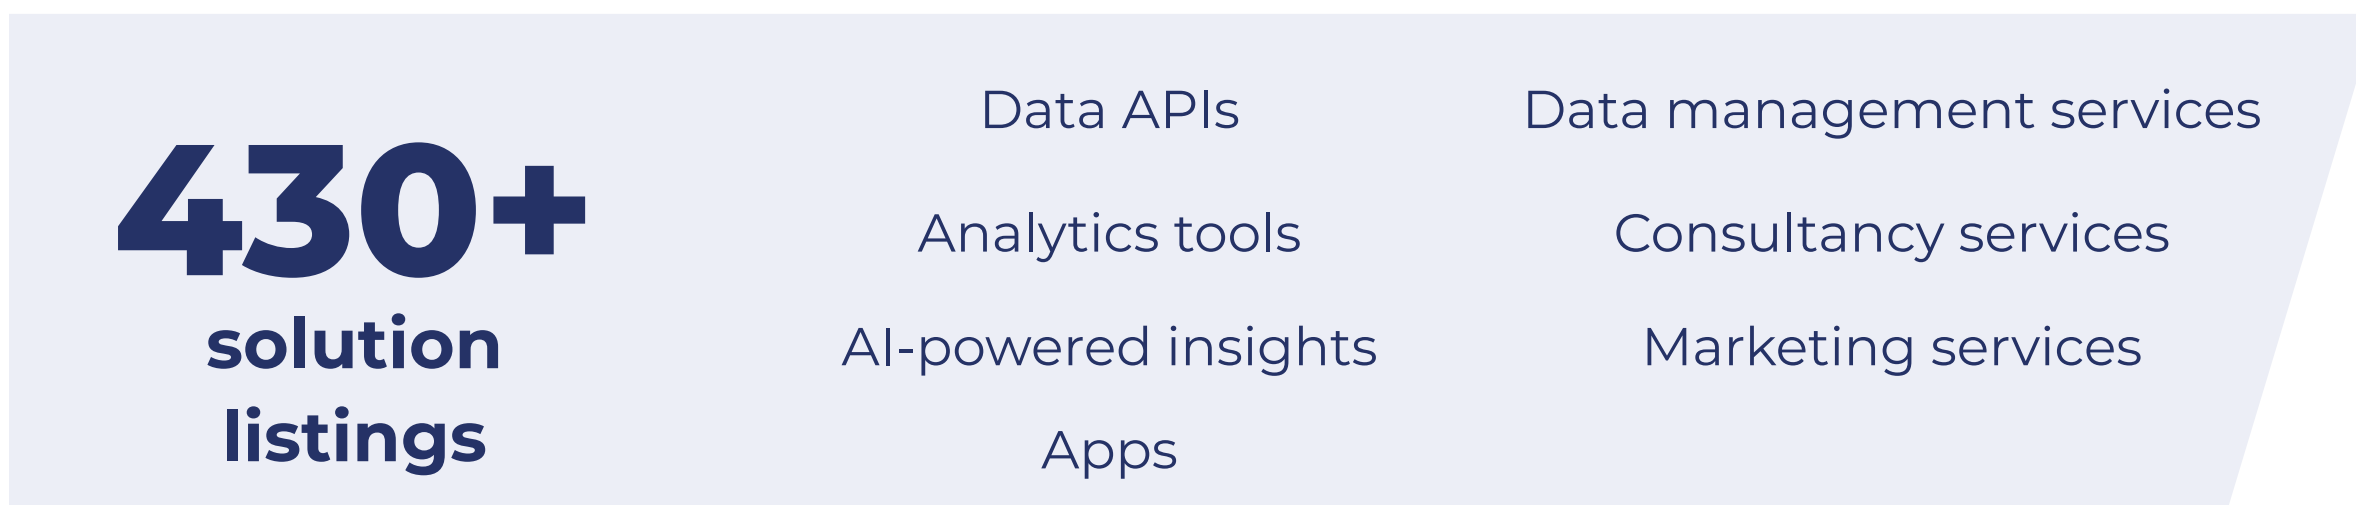

Sell your own digital assets

Commercialise your own applications and datasets to a global market on the Yocova Marketplace

List data, services and software solutions

Find, trial and procure data and software solutions

Meet our Yocova Partners via the Marketplace. Register, login and explore solutions at <https://www.yocova.com/s/marketplace>

* Partners and core sectors correct at time of publication.

Platform pillars

Data rooms

Exchange data with control, privacy and security to solve business and industry challenges

You're in control

- List data APIs in a private cloud, giving you control of who accesses your data, how often and how much
- Choice of cloud storage providers

Secure

- Industrial grade cyber security to ensure any data you share is protected

Interoperable

- Yocova Data Rooms can host and exchange data from a wide variety of data API structures

Unlock value from your data by sharing it with those you trust in a Yocova Data Room.

Here are two examples of current data collaborations:

Global Hazard Data Sharing

Sharing aggregated and anonymised bird strike data between airlines to drive industry safety and operational performance.

16 members from 8 companies

Fuel Efficiency Working Group

Collaboration on live aircraft turbulence data to quantify the impact of different variables on fuel efficiency for airlines.

7 members from 4 companies

Platform pillars

Enterprise Engagement

Distributor Membership content distribution

Trusted command and control platform through which to distribute and manage enterprise digital services, apps and data across your global user and partner community

Content distribution: Customer command and control

Distributor Membership provides a single consolidated and scalable platform through which to distribute, authenticate, manage and update digital content across your user community. It's designed for OEMs and major global enterprises managing a fragmented, complex portfolio of digital services, across an equally fragmented global customer and user base.

- Easily distribute and manage access to your customer facing digital services (apps, data API's and solutions) across your global customer, partner base and wider stakeholder community.
- Take away the technical and commercial complexity of deploying and managing a long and expanding list of digital content across a fragmented global customer and partner base.
- Yocova provides a single command and control platform through which to distribute, authenticate, manage and update all your digital content across your user community.

Distributor Membership: A platform to bring aviation together

Consumers

Individual Membership

Individual members can connect and network with like-minded professionals across the global aviation value chain and digital community, driving collaboration and innovation around industry challenges, technologies and opportunities.

It's the perfect sounding board for ideas, issues and thought leadership – a great platform on which to be seen and heard. Get access to exclusive content, digital facilities and resources, plus the global Marketplace including the latest and leading apps, Data API's, and digital services. It's a global talent pool for industry collaboration. As an Individual Member you can:

- **Easily set up your profile** and gain access to the growing Yocova community, Marketplace and platform capabilities to support you and your organisations digital transformation, innovation and collaboration objectives.
- **Connect and network** with professionals across the aviation value chain and digital community; get access to exclusive content, digital collaboration facilities; plus the global Marketplace.
- **Use Yocova as a single platform** through which to access all your digital content purchased by you, and your Enterprise, or made accessible to you by your Enterprise OEM partners.

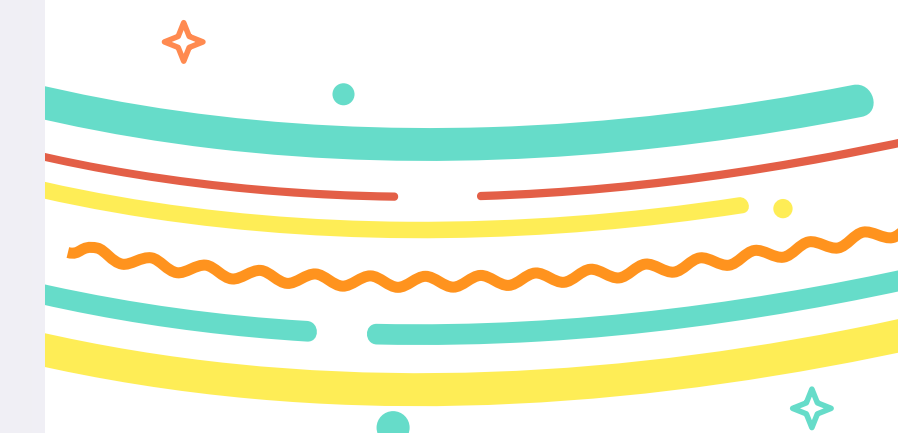

Individual Plan - Free Freemium Base \$ Free / per month

Join the conversation and collaborate securely with the aviation industry.

- ✓ Build your public profile
- ✓ Connect, collaborate, innovate, network and share with the wider aviation community
- ✓ Access exclusive thought leadership, Market Insights and Technical Insights content from across the community
- ✓ Access and Set-up Public and Private Collaboration Groups for teams, partners, customer groups, special interest groups etc.
- ✓ Access, trial, purchase and implement leading digital content and data in the marketplace including user management
- ✓ Access to your Enterprise, OEM and partner Digital content (Apps/ API's) made accessible to you
- ✓ Access to purchase data rooms and data tool kits

REGISTER FREE TODAY

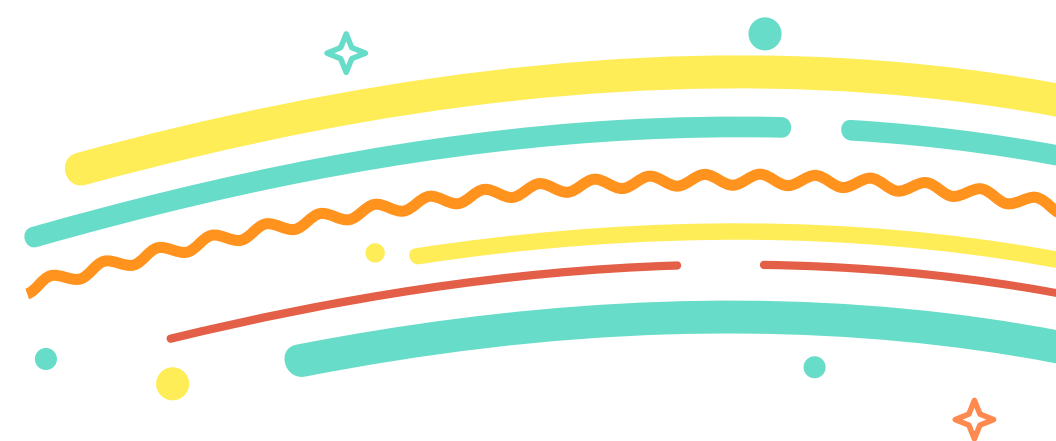

Enterprise Membership

Whether you're an airline, a business jet operator, an OEM, a lessor or any other aviation player, just like other memberships, Enterprise Members can set up their profile and engage and interact with the global community. As an Enterprise Member you can also control secure community rooms for public or private collaboration, enabling employees, customer groups and supply chain partners to safely engage. Yocova's Data Rooms offer the opportunity for further secure data driven collaboration and engagement.

The ability to access, review, purchase, deploy and manage leading digital capabilities from the Marketplace offers lower risk and frictionless digital investments. Plus, Yocova gives you the potential to consolidate your digital procurement investment, and commercial/technical management through a single trusted platform.

In addition to purchasing and distributing content, where your OEM partners are using Yocova to distribute and manage their digital services, you can also access and authenticate digital content to select users across your enterprise.

Yocova is your secure platform to buy, sell, collaborate, innovate, network and share with the global aviation community, including your supply chain partners, customer groups and collaborators.

Yocova Partner Programme Membership

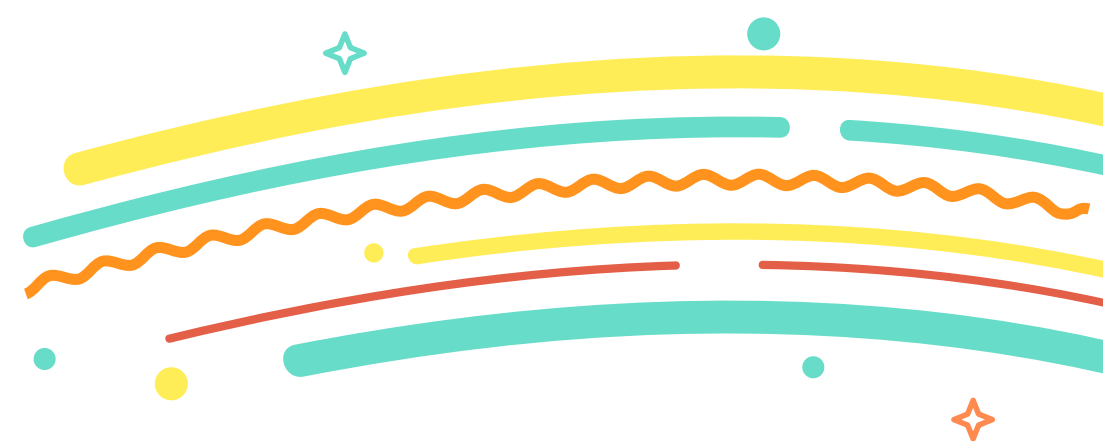

As an approved vendor you can set up trials, market and sell the following solution types in Yocova:

- **Software** – From plug-and-play applications to highly configurable software for aviation organisations
- **Data** – Data API subscriptions which enable customers to fuel their digital solutions, benchmark performance and more
- **Services** – Professional experts and consultancy services to accelerate digital transformation.

Yocova Partners are supported by the Yocova Customer Success Team to help position your business across the global community and deliver against your brand and capability awareness objectives. This is through articles, webinars and a wider set of engagement initiatives.

Yocova provides an additional route to supplement your existing go-to market channels; a sales and marketing force multiplier for your business through which to reduce cost of sale, and access highly targeted marketing qualified leads. And it's a platform to deploy and manage user access throughout the customer lifecycle.

The collaboration group facilities enable you to set up private and customer user groups for product roadmaps, customer feedback, and thought-leadership groups to support the engagement and rolling feedback from your community. Yocova Data Rooms can support you in further secure co-collaboration with your customers and with the wider community to accelerate your roadmap and spawn new solutions to industry challenges.

Distributor Membership

As an additional option to your base Enterprise membership, Distributor Membership provides a single consolidated and scalable platform through which to distribute, authenticate, manage and update digital content across your user community. For OEMs managing a fragmented, complex portfolio of digital services, across an equally fragmented global customer and user base.

• External Distributor Membership

Offers the benefit of a single, command and control platform for efficient and effective deployment, authentication and service management. Whether it be 5 apps across 5 user groups, or 100 across 100, Yocova provides the centralised management of your digital services.

• Internal Distributor Membership

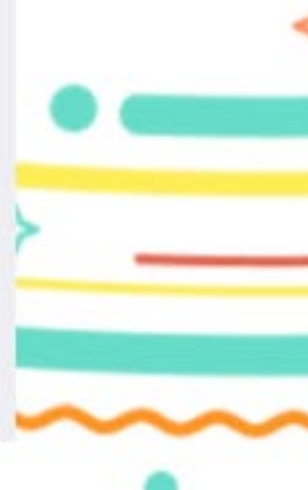

Addresses the same challenges for large enterprises seeking to consolidate and gain efficiency in the effective deployment and management of digital content across their internal estate.

• Premium Distributor

Builds on this capability, offering a branded portal within Yocova through which to serve up your digital services and providing a dedicated customer feed/ communication hub with notification API facility. The portal can be set as the landing page for your user community within Yocova, and provides the benefit of supporting SSO enabled applications. Your branded home within Yocova for effective, efficient user community management and engagement.
